## ACTIVITY BROCHURE

# WELCOME

## WHAT IS HEON?

**The Higher Education Outreach Network (HEON) is a partnership of local organisations including universities and colleges working in Surrey and North East Hampshire.**

HEON is part of the Uni Connect Programme funded by the Office for Students, working towards the government's aim of supporting an increase in the number of young people from under-represented groups who go into higher education.

HEON and our partner organisations offer impartial advice and information on higher education and progression routes by delivering outreach activity such as HE information talks,

workshops, campus visits, subject tasters, mentoring and residential schools, working flexibly to develop programmes that best support schools and colleges and their students in years 9 – 13.

## TARGETING STUDENTS

**Our programme of events aims to increase the number of students from our target geographical wards progressing to Higher Education.**

In order to do this, we prioritise delivery to young people from 11 specific wards across Surrey and North East Hampshire. The Office for Students has identified these wards as areas where the proportion of young people progressing to higher education is low overall, and lower than expected given GCSE attainment levels. HEON's 11 target wards are:

- Aldershot Park
- Ashford North & Stanwell South
- Cherrywood
- Chertsey St Ann's
- Hoe Valley

- North Town
  - Old Dean
  - Preston
  - Stanwell North
  - Stoke
  - Wellington.
- HEON will work with you to help identify which students are eligible for our programme. You can find out which students are eligible by downloading our postcode tool from our website: [www.heon.org.uk/teacher-resources/heon-lookup](http://www.heon.org.uk/teacher-resources/heon-lookup)

The HEON Hub is also available for you. The aim of the Hub is to help provide

both schools and colleges with access to higher education outreach by providing a platform of collaboration. Should you be a member of staff at one of the Hubs schools or colleges you will find a full overview of the Outreach provision available within the area. There is also a range of information and case studies available for practitioners. Students and Parents/Carers will be also be able to find a range of information about further education and higher education within the relevant Hub.

## WORKING WITH HEON

### PARTNER DELIVERY AGREEMENT

HEON will allocate one of our partner officers to work with each of our schools and colleges – Please follow the link below for further information on your allocated Partner Officer - [www.heon.org.uk/about/meet-the-team](http://www.heon.org.uk/about/meet-the-team)

HEON wants to ensure that the best possible service is delivered to all our partner schools. We have developed a wide-ranging programme of activities (pages 10-17) and will work closely with your schools and colleges

to implement a delivery plan for the year, to be agreed with your allocated Partner Officer.

To formalise this plan, we have developed a 'Partnership Delivery Agreement' in which we ask schools/colleges to sign as a form of mutual agreement in relation to the standard of service which is expected between both parties.

As part of this agreement, in 2021-22 HEON are making funding of up to £1,000 available to schools and colleges who sign

the agreement. This funding is intended to facilitate participation in the HEON programme during the academic year.

For more information about the agreement, please contact your allocated Partner Officer or contact HEON via [heon@surrey.ac.uk](mailto:heon@surrey.ac.uk)

### COST

All of our programmes remain free of charge. This includes transport, food/refreshments and materials where required.

### STUDENT SAFETY

All HEON members of staff and Student Ambassadors have an enhanced DBS certificate and Student Ambassadors will be trained to work with young people. Visiting students are supervised at all times by a member of our team. However, we expect school and college staff attending our events

to be responsible for the conduct and safety of their students at all times. We therefore ask that visiting school and college staff remain with the student group that they are allocated throughout the entire visit. All students and staff will be briefed on health and safety at the beginning of each event.

HEON aims to ensure that all required preventative measures to protect ourselves and students from COVID-19 will be carried out during any delivery. All risks assessments have been updated in relation to COVID-19 and can be provided upon request.

### ADDITIONAL SCHOOL/COLLEGE SUPPORT

In addition to delivering the activities on the following pages, HEON can support your students throughout the year at your own events, such as providing impartial

information and advice at careers fairs or parent evenings; Teacher CPD, supporting mock interview events; or by delivering one of our workshops during off-timetable

or drop-down days. We're always open to suggestions too, so if you have an idea or request for us, please get in touch.

# PROGRESSION FRAMEWORK

HEON's Progression Framework underpins and guides our delivery programme.

The Framework is based on a widely used model that states:

Knowledge and attitudes, that are fundamental to the Framework, have been divided into more detailed outcomes. We can test whether outcomes are being achieved and identify any gaps in our programme delivery.

There are three stages for each learner in our sustained and progressive programme.

The framework also aligns with the Gatsby benchmarks:

## GATSBY BENCHMARKS

The Gatsby Benchmarks are a framework of 8 guidelines that define the best careers provision in secondary schools. HEON are here to work with your school or college to help you meet many of the Gatsby benchmarks

## WHY ATTEND A HEON RESIDENTIAL?

Our residentials are designed to provide vital information about higher education options and subjects, enabling attendees to make informed decisions about their future education. Residentials also enable students to truly experience life in higher education and see themselves in the setting, unlocking their confidence and motivation to progress to HE in the future.

## ABOUT HEON RESIDENTIALS

This year HEON are offering two residentials; one during the Easter Holidays and one in Summer.

HEON residentials consist of workshops, practical activities and information sessions during the day, to showcase all Higher Education options and possible career routes. There will also be fun and informal entertainment in the evenings. Attendees will also get to meet current University students to really get a taste of what life at University would be like.

Sessions are delivered by many of our partner institutions, which provides a varied, balanced insight into higher education options.

Both HEON residentials are completely free.

I THOROUGHLY ENJOYED THIS WEEK. MY PARTICULARLY HIGHLIGHTS AND FAVOURITES WERE THE POLITICS, CRIMINAL LAW AND FINANCE AND BUDGETING SESSIONS.
